Lesson 2

LO: To research designs and create a design criteria, aimed at a particular group. (WAGOLL)

Design criteria for my Bug Hotel:

- I want to make a Bug Hotel for minibeasts to live in for my garden.
- I want it to be made from recycled and natural materials.
- I want it to be an attractive design
- I want it to be inviting for insects and bugs.
- I want to be able to observe the bugs inside.
- It needs to be well- made (not fall apart).

Tiny bugs should be warm and snug.

Can be wedged between tree branches

Rolled up newspaper

Not very attractive.

Protected by plastic bottle casing and good for observation.

Tightly packed in so it doesn't fall out.

Colourful tin can protecting materials inside but not good for observation.

Could be sharp at the top of the tin.

Inviting for bugs

Attractive in my garden

Recycled and natural material

Tightly packed in so it doesn't fall out.
