£4.65

Three children buy toys.
Can you work out who buys what?
Tommy buys a toy which rounds to £5
but gets change from £5
Amir buys two toys which total
approximately £25
Eva's toy costs 5 p more than the
number the cost rounds to.

If you had £30, what combinations could
you buy and what change would you
approximately get?

2.

Mo buys some socks and gloves.
He estimates how much
he'll spend.

£4 + £5 = £9

What could the actual price of the socks
and gloves have been?

Mo has £12
He says he has enough money to buy
three pairs of socks.

Do you agree?
Explain why.
