

Efficient multiplication

1 Class 4 are multiplying 28×4 mentally. They are trying two different methods.

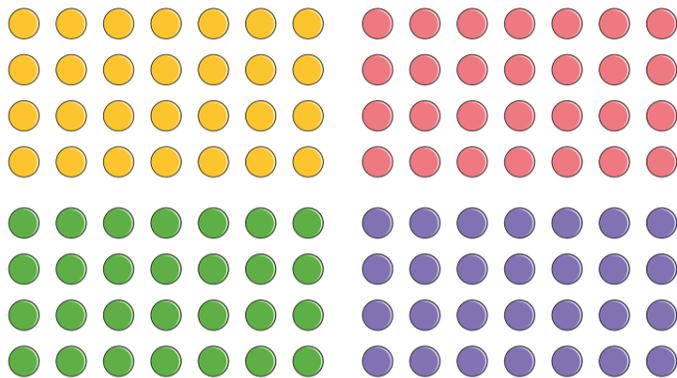

a) Complete their calculations.

Method 1

$$20 \times 4 + 8 \times 4 = \boxed{80} + \boxed{32} = \boxed{112}$$

Method 2

$$4 \times \boxed{28} = \boxed{112}$$

b) Which method do you find easier?

Talk about it with a partner.

c) What other methods could you use to work out 28×4 ?

E.g. $(4 \times 30) - (4 \times 2)$

2 Mo, Amir and Annie worked out 35×6 in 3 different ways.

Mo

I multiplied 30 by 6 and then added 5 more lots of 6

I multiplied 35 by 2, then multiplied that answer by 3

Amir

Annie

I multiplied 5 by 6, then multiplied that answer by 7

a) Work out the answer using each method to show that they are all correct.

Mo

$$\begin{aligned} 30 \times 6 &= 180 \\ 5 \times 6 &= 30 \\ 180 + 30 &= \underline{210} \end{aligned}$$

Amir

$$\begin{aligned} 35 \times 2 &= 70 \\ 70 \times 3 &= \underline{210} \end{aligned}$$

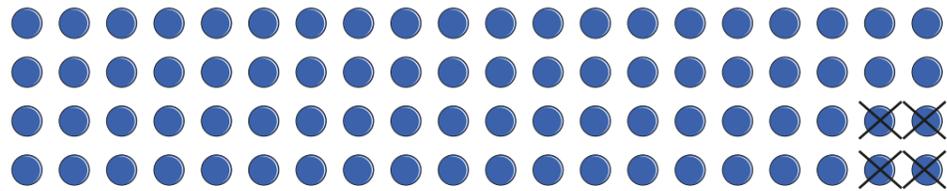

Annie

$$\begin{aligned} 5 \times 6 &= 30 \\ 30 \times 7 &= \underline{210} \end{aligned}$$

b) Who has used the most efficient method?

Talk about it with a partner.

3 Scott is working out 21×4

$$\begin{aligned} 20 \times 4 &= 80 \\ 80 - 4 &= 76 \\ 21 \times 4 &= 76 \end{aligned}$$

a) What mistake has Scott made?

He has taken 4, he should have added it.

b) What is the correct answer?

84

4 Jack works out 36×9

$$\begin{aligned} 36 \times 9 \\ 36 \times (10 - 1) \\ 360 - 36 = 324 \end{aligned}$$

Adapt Jack's method to work out 36×99

$$36 \times 99 = 3,564$$

5 Esther has found a quick way to multiply 84 by 5

$$\begin{aligned} 84 \times 5 \\ 84 \times 10 = 840 \\ \text{(then divide by 2) which is 420} \end{aligned}$$

Use Esther's method to complete the calculations.

$$43 \times 5 = 215$$

$$74 \times 5 = 370$$

$$62 \times 5 = 310$$

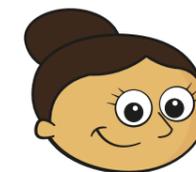

6 Tommy and Dora are both working out 25×8

$$25 \times 8 = 25 \times 10 - 25 \times 2$$

a) Use Tommy's method to work out the answer.

200

$$25 \times 8 = 50 \times 8 \div 2$$

b) Use Dora's method to work out the answer.

200

c) Whose method do you prefer? Why?

Various answers.

d) Do you know another method?
